

Like all your beautiful and precious treasures, your Keepsake requires some special care.

Unlike glass, acrylics cannot be cleaned with just any cleaner especially window cleaners containing ammonia Use **ONLY** recommended cleansers for and on acrylics.

Never apply any cleaner directly to your Keepsake. When cleaning or dusting apply cleaner to a soft clean cloth, **NEVER USE A SPRAY WINDOW CLEANER OF ANY KIND AS THEY WILL CLOUD THE ACRYLIC PANE AND DOMES!** This is very important and we cannot stress this enough. AAMM will not guarantee our product against clouding due to improper care.

AAMM has provided a sample 2oz bottle of "Novus" plastic clean and shine, a specialized acrylic cleaner for your convenience. We also sell this product in larger sizes if you wish to purchase it from us. However, it can also be purchased from your local hardware store as well as other major brands.

Whether using our provided cleaner or cleaner of your personal selection, take special care not to spray the cleaner directly on the acrylics as already mentioned. The best results are achieved by applying the cleaner to a soft clean cloth, then using a circular motion to gently clean or dust your keepsake.

~~Flowers will change color tones (slightly) over a period of time, taking on Victorian shading; this is normal and will not affect the overall beauty of your treasure. ~~

- 1 Take care to keep your Preserved Keepsake out of moist areas such as kitchens, bathrooms, outside porches, and out of direct sunlight (sunrooms) to prevent deterioration and pre-mature fading.
- 2 If using furniture polish on the base or frame portion of your Keepsake, take great care not to get the polish on the acrylics. Here again, applying polish to a clean soft cloth before cleaning and not spraying directly to the wood will achieve the best overall results.
- 3 Careful handling of your Keepsake is always advisable. Try not to shake or drop your treasure. While flowers are not brittle and can withstand some hands on admiring, they are still a delicate work of custom art.
- 4 Should you drop or shake your Keepsake and a flower becomes dislodged,

please allow AAMM to repair your treasure. We will do everything in our power to assist you in a timely manner and as cost effectively as possible.

- 5 It is not advised that you take your bouquet out of the protective display. AAMM will not guarantee your Keepsake if it has been dismantled in any way.
- 6 When storing or packing to move becomes a necessity, please follow fragile packing standards. In addition, mark box, "caution" "fragile" "freeze-dried flowers enclosed do not shake, stack (on bottom of pile) crush, drop or get wet".

These are a few helpful suggestions to keep your Keepsake beautiful for years to come offering you that flash back to that magical moment in time when you said, " I Do" or I will hold this forever in memory.
